Springboard

Programme	Young Swiss living abroad receive support in planning and beginning their education in Switzerland. The education (apprenticeship/university of applied sciences/university) in Switzerland should then be possible without further support after as short a period as possible. The programme's motto is: "Helping to be independent".
Age	18 and above
Accommodation	<p>As soon as the applicant has received a definite place at the educational establishment, OSA will look for a spot with a host family. At the moment, host family spots are only available in German-speaking Switzerland. We cannot provide any guarantee that a host family spot will be available.</p> <p>The host family will offer the young person a room as well as board and support them while they begin their education. The existing guidelines for the "Host family stay" offer apply. However, since the stay lasts longer, the host family receives CHF 500.00 per month for the expenses incurred.</p> <p>The stay with a host family lasts a maximum of six months. The young persons must have found their own accommodation by the end of this period.</p>
Price	CHF 500.00 (one-off payment) for planning and organisation and CHF 500.00 (monthly) for the host family
Notes	<p>The advice and procedure are organised individually for each participant. We require sufficient time for this organisation to ensure that the stay is successful. Planning for participation in the "Springboard" project begins one year ahead of time!</p> <p>Information and application at educationsuisse – education in Switzerland under Contact</p> <p>educationsuisse can also advise young Swiss about scholarships.</p> <p>Strong abilities in German or French are required! The programme is targeted at young people with a Swiss passport or graduates of a Swiss school abroad.</p>
